**Campaign Spending:** [List of Filers](#)

Aloha. My name is Aaron Anderson and I'm running for the 4th District House of Representative seat.

Experience is showing us that a limited government governs best. My basic platform rests on removing excessive government intrusion from our personal lives and from commerce and free trade. These are the principles our country was founded on and I don't think there has been a better idea since.

My political values are based on sound moral principles: I believe we own our own bodies and are responsible for them. I believe in "live and let live" based on the principles of non-coercion.

When we stick to the constitution we eliminate most special interest lobbying. Most special interest programs could be more efficiently handled by churches and other organizations much more effectively than government bureaucrats can.

Vote for me and I will promise only one thing: to remain true to these principles. I cannot promise you a new park or a better gym. I will, however, see that whatever we spend your money on will be of good quality, have lasting value and a high regard for aesthetics.

I will always vote in a way that increases your choices and expands your liberty. I will work diligently to reduce the size and waste of government and I will work to dismantle the myth that says we must sacrifice liberty to achieve security.

The Three main planks of my campaign are education reform, economic opportunities and government waste. Mahalo in advance for your support.
